I quote:

Do not worry, eat three square a day, say our lawyers, be content with your children, keep your digestion good, steer clear of billiards, exercise, go slow and go easy. Maybe there are other things that you especially require to be happy—but your friend, this I reckon will give you a good lift.—Abraham Lincoln.

The greater the obstacle, the more glory in overcoming it. —Moliere.

When you get into a tight place and everything goes against you till the end, you can't hold on a minute longer, never give up then, for that is just the place that the tide will turn.—Harriet Beecher Stowe.

With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right.—Abraham Lincoln.

Pride goeth before destruction and a haughty spirit before a fall.—Proverb.

Happiness is a perfume you cannot pour out on others without getting a few drops on yourself.—Emerson.

A friend is a person with whom I may be sincere. Before him I may think aloud.—Emerson.

Yielding is sometimes the best way of succeeding.—Proverb.

He that loses his conscience has nothing left that is worth keeping.—Isaac Walton.

Tug Burn In West
Palms Beach Canal

The "spark" use of the tugs, used on the lake improvement, burned in the Canal Point lock basin, early Friday morning. When the engineer cranked the engine, there was a roar and an explosion, and soon the craft was adrift. Boatmen managed to maneuver the boat away from other craft docked in the canal, running it ashore down the stream, where it exploded. The scene was a perfect one for a disaster of serious import.

County Agent Talks
To Pahokee Rotarians

M. U. Mounts, county agent, spoke to Pahokee Rotarians at the regular monthly meeting yesterday. Mr. Mounts described for the Rotarians the possibilities of diversification of crops in the Pahokee-Canal Point area. A girls' quartet under the direction of Miss Mary Leonard rendered one selection which was thoroughly enjoyed by the members.

Base Ball Nine
Takes Trouncing.

The Pahokee High ball team went over to West Palm Beach, Sunday, March 10, for a game with the local team, and failed to make much of a showing against their more seasoned opponents, as the game ended 21 to 1.

Players from the Pahokee Nine, Kenyon, Allard, Clegg, Walker, Peacock, Hancock, Hart, Cowan, Denton, Tatum, Hard, and Spomer, Allen and Peacock were in the box for Pahokee and Clegg, the winning team.

Tom Campbell did not like the manner in which the East coasters trounced the local lads.

The long sought collection of wild birds at Mounts Botanical Garden, near Orlando, has been started with a brace of Mallard ducks, by L. D. Llewellyn of Miami.

Three Candidates For Constable Job In Coming Primary

Albert Gant, Francis Cross
And H. L. (Pop) Sears
In Race

Two residents of Canal Point and one from Pahokee have signed their intent of nomination for constable from this district. The incumbents, Albert Gant, of Canal Point, and Francis Cross, of Pahokee, and H. L. (Pop) Sears, of Canal Point, are the other candidates. Formal announcements of all three candidates will appear in the paper.

Miss Pearl Pearce Visits Lake Region

Miss Pearl Pearce, of Fort Lauderdale, was a visitor in the Lake Region yesterday. She is one of her candidates for delegate to the national convention from the state-at-large. Miss Pearce is a ranch owner on the Kissimmee river, and a member of the Highlands County Pahokee Woman's Club for Women in Tallahassee. She has taught school in Avon Park, Lake Placid and Clearwater. She is a member of the State democratic committee from Highlands county.

Chandler To Have Rink Concession

Julian Chandler has secured the refreshment concession at the new Pahokee rink and will be on hand with a fine new soda fountain equipment at the opening next Monday night.

Pompano Growers Visit 2 Migratory Camps Belle Glade

Lower East Coast Group
Inspects FSA
Buildings

Pompano growers recently visited Belle Glade to inspect migratory camps and to inspect the completion of a similar development project for Pompano. The delegation was much pleased with what they saw in the camp and concluded what such camps would mean for Pompano in the proper care of its laboring classes.

As one passes the colored camp

EASTER'S SIGNIFICANCE

What is termed civilization could not have been very old when men began to ask themselves if death could be the ultimate goal of life. It was many centuries ago that a man named Job summed up the yearnings of the human soul in the pensive query: "If a man die shall he live again?"

From remote antiquity men have tried to find the answer to that question. Scientists and philosophers, mystics and logicians have pointed intellects telescopes toward the stars in search of answers to be sure to be thwarted, and set at nought by that blank wall which separates the seen from the unseen, the fathomed from the unfathomable.

Strange, is it not, that with the inevitability of death always before them men find it possible under ordinary circumstances to draw the curtains of their minds against it? Yet there are moments in the life of almost every man when "sad images of the dead, and pale, and deathlike" dogged the soul, because "cause him to inevitably resolve themselves at last into Job's poignant question."

That question has been answered. But

Pinellas county last week received a bouquet from the state, according to the Clearwater Sun. When the audit of the school board's record was received from State Auditor Wainwright at Tallahassee, it was accompanied by a letter of congratulations which stated that the operation of the

school system in Pinellas county was virtually a model for the rest of the state.

Under the law, property owners of Florida entitled to Homestead exemption must file their application with local tax assessor prior to April 1.

the answer did not come from the scientists or the philosophers, the sophists of the logicians. It came from a Man in a far-off Palestine more than nineteen hundred years ago, and He framed it in these simple but dynamic words: "Because I live ye shall live also."

On Sunday, in the churches of this city and throughout the civilized world and in isolated outposts of faith where civilization is yet unborn; on mountain tops and in grassy fields and even on an occasional street corner in a city slum, the efficiency of His answer—attested through the centuries by incalculable millions!—will be reasserted and re-verified before a world of dying men.

It is not the whole of the Easter message. The church is not so naive as to hold that the resurrection of Christ automatically effectuated the immortality of human souls. But it points to the resurrection as the final and irrefutable evidence that the Man in Palestine was in very truth the incarnate Son of God, Who, by His sacrificial death upon the cross, flung open the gates of hell to those throughout the ages who believe in Him.

This, reduced to its simplest terms, is the Easter gospel. It is the answer of religion to man's inopportune question about life beyond the grave. It interprets and makes crystal clear the significance of His words, whose rising from the dead is memorialized on Easter: "Let not your heart be troubled; it is in God, believe also in Me, because in My Father's house are many mansions... I go to prepare a place for you." —Palm Beach Post.

Safety Director
Points Out Loss
Of Life In State5,711 Persons Killed During The Past 11 Years
He Says

Tampa, March 21.—It is with a great deal of surprise and chagrin, states Asst. Frank A. Tamm, Florida Safety Council, who observes that certain state, city and county officials are becoming aroused, at this time, over the traffic safety situation, that has been brought about by relentless, callous, and drunken drivers.

During the past 11 years, 5711 persons have been killed in traffic accidents, if these are corrected in this base, and piled on top of each other, they would make a mountain 3 miles high, or equal to the population of Bradenton and Bartow; yet that did not arouse certain officials.

It is this done, the state will have enough revenue to, not only equip 600 men, but 120 men; set up 100 stations, and 1000 service stations, and truly bring about a Safety Consciousness of our people.

Reports show that more than 68 percent of traffic fatalities are occurring on our rural highways and that 12 percent of all traffic fatalities are on state roads.

The left, and only way to reduce traffic accidents and fatalities is to employ trained engineers, who make it their business to study the reduction of accidents through proper engineering.

THE EVERGLADES NEWS, CANAL POINT, FLORIDA

For more than 12 years the Florida Safety Council, through the various civic clubs, schools, and with the aid of the press, have presented the three "E's" of Safety—Education, Engineering, and Enforcement.

Through the cooperation of the civic clubs of the state, the American Legion, the P.T.A., and the press, we have had state Drivers License Law, a Highway Patrol, steel school buses, and our roads are being properly marked. It would make no difference if all roads were marked, it all comes down to the Individual Driver and Walker.

Continuing Frank stated, during February of this year, 57 lives were snuffed out. A personal note: "I am not so naive as to hold that the resurrection of Christ automatically effectuated the immortality of human souls. But it points to the resurrection as the final and irrefutable evidence that the Man in Palestine was in very truth the incarnate Son of God, Who, by His sacrificial death upon the cross, flung open the gates of hell to those throughout the ages who believe in Him."

At Ft. Pierce, a whole family, including a child of 3, and one five-year-old, wiped out by running into a train.

Yes, all unavoidable, says the coroner's jury, 57 lives needlessly wasted, and everyone would be alive today if they had practiced common sense.

It is no use to get excited, certainly we need a larger Highway Patrol, and it is a shame to learn that Hillsborough County has issued only 62,000 Drivers' Licenses; with a population of less than 15,000 vehicles; against Dade County, with a registration of over 30,000 vehicles, has only issued 32,000 Drivers' Licenses; less than 10,000 vehicles.

There is nothing wrong with the Drivers' License Law, and certainly the fine men on the Patrol have already demonstrated that they are capable, and are doing a good job if only we have more of them.

It is the fault of the officers of Florida, including the sheriff, police officers and others to see that every person who drives a motor vehicle on the streets and highways of our state have a Drivers' License.

If this is done, the state will have enough revenue to, not only equip 600 men, but 120 men; set up 100 stations, and 1000 service stations, and truly bring about a Safety Consciousness of our people.

Reports show that more than 68 percent of traffic fatalities are occurring on our rural highways and that 12 percent of all traffic fatalities are on state roads.

Reports show that more than 68 percent of traffic fatalities are occurring on our rural highways and that 12 percent of all traffic fatalities are on state roads.

The left, and only way to reduce traffic accidents and fatalities is to employ trained engineers, who make it their business to study the reduction of accidents through proper engineering.

It is this done, the state will have enough revenue to, not only equip 600 men, but 120 men; set up 100 stations, and 1000 service stations, and truly bring about a Safety Consciousness of our people.

DON'T FORGET THE

Everglades News FREE COOKING SCHOOL

MRS. HELEN WEEKS HARRIS

Mrs. Harris is sent here by Loyer Bros. Company and the Spy Research Kitchen of Cambridge, Mass., to conduct a cooking school on the afternoon of two days—

Thursday and Friday
APRIL 4th and 5th

Pahokee Woman's Club

PAHOKEE, FLORIDA

2:00 p. m. Daily

Mrs. Harris, who is a university graduate in Home Economics, is a writer and lecturer on food subjects and a recognized authority on all such problems.

The latest in electric cooking and refrigerating equipment will be demonstrated by Mrs. Harris and many valuable cooking hints and recipes will be explained and distributed. Every woman in the Lake Region can learn something of value to her in her household duties.

REMEMBER THESE DATES

Keep the afternoon of these two days apart from conflicting engagements and make it a point to attend the School. You will be richly repaid for your time and trouble.

NOT A MOTION PICTURE

This is NOT a motion picture, but actual demonstrations in the view of every spectator, where questions may be asked and suggestions received from the lecturer, if desired.

MANY VALUABLE ATTENDANCE
PRIZES, including 10 FOOD BASKETS

& Light Company and other merchants of the campaign was made by P. Paul deMoya, utility manager.

Newspaper advertising will, as in the past, work with visitors and the many advantages of prolonging their stay in this state he urged not to risk the uncertainty of northern spring. Radio and television will be utilized during the campaign period.

One hundred and thirty thousand automobile windshield stickers, printed in colors will be distributed free. Post offices, Light Companies, stores and offices throughout the state to all persons who wish them, Mr. deMoya said.

Figures compiled by the utility companies show a general seven percent increase in spring business since the "Stay Thru May" campaigns were first inaugurated.

Indexing March sales at 100 percent, April compiled for the period 1938-39, before the campaigns were inaugurated, fell to 75 percent. However, since the campaigns were inaugurated, the drop was only to 82 percent and in 1939 the decrease was only to 86 percent. In May, during the pre-

campaign period, the average was 80 percent of March business. In the three campaign years, the average was up to 84 percent and in 1939 it was up to 74 percent.

Mr. deMoya said: "I believed that the campaign would be continued and in fact made even more noticeable to all business in South Florida if a concerted effort is made to cooperate in the campaign." Other visitors are doing our visitors a favor when we sell them on the advantages of our region," he said.

Our visitors are doing our visitors a favor when we sell them on the advantages of our region," he said. "Our campaign is doing them a favor in keeping them here, too. Our clubs and civic leaders can do this city a real service in promoting "Stay Thru May."

Future Greatness—

(Continued from page 1) long road and firm courage to build Miami, Miami Beach and Coral Gables out of mangrove swamps and sandy wastelands of the East Coast of 30 years ago.

"It will take the same sort of courage and determination to be able to build the Florida of the future, which all sections of the state should unite in a common endeavor to create."

"The future of Florida has shown its face in Florida's future. Our government has lagged far behind. It must be brought up to date, streamlined to keep pace with the great progress private industry has made," he said.

"Government must encourage and not interfere with business. We must have a stable and understanding government. Tallahassee in order that private industry may know what to expect."

"To do this Florida needs a leadership by men of the same caliber and vision as the lead in our business world."

The Whitbread candidacy continues to be received with enthusiasm everywhere. All the leading political prognosticators place the DeLand candidate at the top of their lists.

Senior class of Pahokee high school will be presenting its annual play which is now in course of rehearsal under the direction of Mrs. Willits.

It didn't walk in to the Chamber of Commerce office. Instead, it was caught in Frank L. Grove in Indian River at his place at St. Lucie and taken to the chamber office, where it was promptly placed in a jar of formaldehyde. It had already passed on to wherever fish spotters are supposed to go.

Sargassum walking fish, according to the dictionary, occurs in tropical waters of the Atlantic, particularly where there are large growths of sargassum weed. Its shape and color make it practically invisible in such growth, particularly when it is protected from its enemies (and maybe bill collectors).

It climbs about in froglike manner with the help of arm-like tentacles and various fins. The worm-like fish is about 10 inches long.

Few of them have ever been seen hereabouts, and probably none so large. — Ft. Pierce News-Tribune

It's the first time that this one is on display at the Chamber of Commerce in 10 inches long.

Airline has 118, Lee 108, Leon 93, Mosiac 122, St. Johns 101, St. Lucie 65, Sarasota 103.

Gaines has the fewest—11.

Garden Club Met
Tuesday Afternoon

The Community Garden Club met at the home of Mrs. Frank Shaughnessy, Port Mayaca, with Mrs. J. C. Denton, president, on Tuesday, March 13th, at 3 p.m.

The short business meeting was presided over by Mrs. A. Hansen, president. The minutes of the last meeting were read and approved by Mrs. G. E. Sartoris in the absence of Mrs. secretary, Mrs. Dunay. Mrs. H. L. Speer gave the botany lesson. Mrs. V. C. Denton and Mrs. G. E. Sartoris brought unusual flowers.

The program of the day was in charge of Mrs. J. E. Cochran, Sr. Her subject was "Minature Flower Arrangements." Most of the members brought minature arrangements and many of them had loved it. It was indeed hard to choose among them. Mrs. Cochran announced that a prize would be given for the one receiving the most votes. The homely minature guest was extended nuptial greetings and wishes for a happy and prosperous married life.

On a center table was uncovered a large cake, which had an adornment, a minor bride and groom, the bride-elect doing the first cutting. The cake was cut by a committee assisted in serving dainty refreshments. At the departing hour the popular singer guest was extended nuptial greetings and wishes for a happy and prosperous married life.

Students Take
BYPU Course

Mrs. Cochran gave a short talk on interesting talk on "Minature Flower Arrangements." Mrs. Cochran period out the theme of the day by serving delicious minature cakes, candies and sandwiches with fruit juice.

Those present were: Mrs. A. Hansen, Mrs. H. L. Speer, Mrs. G. E. Sartoris, Mrs. C. A. Bailey, Mrs. J. C. Cochran, Mrs. A. R. Chastain, Mrs. C. G. Coburn, Mrs. J. E. Cochran, Mrs. T. M. Dechman, Mrs. V. C. Denton, Mrs. A. W. Fowler, Mrs. Alice Foy, Mrs. G. E. Sartoris, Mrs. Lowe Geiger, Mrs. G. V. Hodson, Mrs. W. P. Jernigan, Mrs. E. G. Kilpatrick, Mrs. H. M. McLean, and mother, Mrs. George McLean, Mrs. J. P. McLean, Mrs. Seth Roberts, Mrs. G. L. Sims, Mrs. H. L. Speer, Mrs. G. B. Sartoris, Mrs. Earl Smith, Mrs. I. W. Weeks, Mrs. Ben Waring, Mrs. Frank Shaughnessy, Mrs. Preston White.

Shower Is Given
For Miss Rice

One of the largest and most successful social gatherings that has recently interested Pahokee is the annual shower at the Woman's club. This night, given by Mrs. L. W. Armstrong in honor of Miss Katherine Rice, one of Pahokee's popular young women, while it attended by more than 100 guests. Our Easter morning at the close of the services at the Methodist church, Miss Rice will become the bride of Mr. and Mrs. Frank Fountain, of West Palm Beach.

The club room was decorated in a manner which made it a bower of beauty and brought delight to those in attendance. Mrs. Kennedy will spend the Easter weekend with their parents in Lake Worth and Drayton.

Mr. and Mrs. Mike Patrick, of Leicester, N. Y., who have been here for the past two weeks, concluded their visit on Monday and left on their long motor trek to the north. While here they have traveled extensively over the south Florida territory, and as this was their first visit to Florida, they were much pleased with their trips, and promise to return again. Mrs. Armstrong and Mrs. Kennedy will spend the Easter weekend with their parents in Lake Worth and Drayton.

FLOWER SHOW

The annual Flower Show of the West Palm Beach Garden Club will be held at the National Guard Armory on Lake Avenue, and the public is invited to view it on March 20, from 3 p.m. to 9 p.m., and on March 31, from 9 a.m. to 9 p.m.

Approaches Are Being Erected

The Eberbach Construction Company is working on the approaches of building approaches to the new Belle Glade bridge and hopes to have the work fully completed soon after April 1st. The company will soon move its equipment to Belle Glade in Glades county, where it will construct 12 miles of gravel road from the dike north of Okeechobee to Lakeport, on the west side of the lake.

HARRIS IMPROVED

Former Mayor R. K. Harris who is a patient at the Bay Pines Hospital at St. Petersburg, is showing signs of improvement in his condition, but will need to remain at that institution for some time in order to recover full health.

To the Democratic
Voters of Palm Beach
County of the Primary
Election of

May 7, 1940:

I respectfully announce my candidacy for the office of Clerk of the Circuit Court, and will be grateful for your support.

Lion Governor Is Guest Pahokee Club

MEETING IN SEBRING

A mass State Prohibition convention has been called to meet in Sebring, Hotel Atlantic, on Tuesday, April 11, at 10 a.m., for the purpose of promoting the New Crusade for National Prohibition, electing a state delegate to the State Prohibition Convention in Chicago May 8th, nominating seven Presidential Electors and a State ticket, electing a new State Committee and transacting any other State Road No. 26.

Gov. Brunstetter gave a talk in which he outlined the history of the Lions movement and its aims. He also urged the two clubs to have sizeable representation at the annual state convention to be held in Hollywood in June, and at the International Convention at Havana.

It is coincident that both the Lions and Rotary clubs hold their state and international conventions in the same cities this year. The Pahokee Lions club made a \$100.00 donation to the Pahokee Sewing room.

Jack Cash Speaks For Edwin G. Fraser

Jack Cash spoke from a sound truck at Pahokee yesterday morning in behalf of the candidacy of Edwin G. Fraser, candidate for state comptroller. Mr. Cash made a short announcement in Canal Point to the effect that he would return to Okeechobee where he was scheduled to speak last night.

HYACINTHS CLEARED

The government craft which has been working on the removal of the hyacinths from the Hillsboro causeway from Chincoteague to Six Mile Bend, has completed its work and is now moored at Belle Glade. The temporary bridge over the canal is to be placed back into condition for detour traffic purposes as the permanent bridge will again be closed to permit the finishing work on the approaches.

Here is the kind of man you've often wished would be the ideal candidate for governor — a man who has risen from poverty to success by the hardest sort of work . . . who has become an outstanding leader in his profession — who is admired for his loyalty, integrity and public spirit. He is the product of the farmer, who knows a man's needs . . . yet, who, because of his success and high sense of honor, will be above the temptations of self-interest in office.

Francis Whitehair knows the problems of the poor man because he was desperately poor. Unaided, he worked his way through high school and college. He is the product of the farmer, because he is a citizen, grower and farmer. He knows the problems of the business man, because he is a business man. He knows the problems of the tax-payer because he is a tax-payer. A young man . . . a strong, able man . . . yet a simple, friendly, approachable human being.
